Head of Product & Marketing

# WHO ARE WE?

People who work together to solve our issues well

More than 13 years of collaboration

Applications in a productivity domain with more than a million users

The process that involved ~15 teams in five locations (Ukraine and EU)

The R&D department and Machine Learning development

We've chosen to help Ukraine, because we can do it

# WHAT HAS OUR TEAM DONE?

# WHAT HAS OUR TEAM DONE?

# OUR TODAY'S PRODUCTS

**SOFTWARE AUTOMATION & PRODUCTIVITY TOOLS**

**MILITARY TECHNOLOGIES R&D AND HARDWARE**

# IDMO.TECH FPV-DRONES

## MILITARY TECHNOLOGIES
## R&D AND HARDWARE

# DRONES OVERVIEW

Two types of drones:
**FPV-Drone Medium** and **FPV-Drone Lite**

- Components agreed with military engineers and FPV drone pilots;
- Appropriate permits for flying and testing our devices from government services;
- Complectation with high-quality batteries from a certified manufacturer.

We have taken into account the needs of the military and provide them with the optimal technical solution.

- High-quality image at dusk;
- There is an assembly where the video transmitter allows you to wait for permission to take off after launching the drone;
- Not affected by neighboring launches.

It saves time and money. Makes the drone more convenient and safer to use.

**IDMO.TECH**

# DRONES OVERVIEW

## FPV-Drone Medium

This product uses a high-quality video transmitter with **active** cooling, which allows the drone operator **to wait for permission to take off**.

## FPV-Drone Lite

This product uses a high-quality video transmitter with **passive** cooling, which requires the pilot **to take off as quickly as possible**.

IDMO.TECH

# Miranda Assistance

## SOFTWARE AUTOMATION & PRODUCTIVITY TOOLS

# Miranda Tracking

**the system to manage tasks simply**

Create, moderate and quickly navigate your tasks

Work through an advanced dashboard in your browser

Add to your work chats through a bot

Easily turn your messages to colleagues into tasks

Manage tasks directly from the chat without unnecessary actions

Easier than a paper notebook

**IDMO.TECH**

# Miranda Schedule

**the system to manage your time**

Organize your educational schedule

Register teachers and students, unite them into groups

Use a week-oriented calendar for your events

Record everything you need for the lecture: date, participants, room

Think back to how your school diary worked

Create tasks, documents and recordings tied to events

**IDMO.TECH**
